Subject: Skeo support for Passaic River CAG

Under this Technical Directive, support for the Passaic River CAG includes:

- Reviewing and interpreting Cooperating Parties Group proposal to remediate the lower 8 miles of the Passaic River
- Developing summary tables which (1) identify dredging projects and technologies and (2) identify key components of the Cooperating Parties Group proposal, potential gaps, schedule impacts, etc.
- Reviewing and interpreting the Focused Feasibility Study and (2) Proposed Plan for the lower Passaic River, and developing summary fact sheets.
- Presenting technical reviews to CAG.

Deliverables:

- Scoping meeting (with EPA and community): prior to developing work plan/approach & based on EPA staff and community availability.
- Work plan/approach for support under this TD (including estimated staffing, hours and costs): within seven days of scoping meeting.
- Technical document review and interpretation: based on document release/availability schedule.
- Fact sheets and summary tables: based on document release/availability.
- Presentation(s) to CAG: as scheduled with CAG.
- Follow up to CAG questions: as needed.
- Communications and coordination with EPA: ongoing, as needed.
